Saturday Night's Blaze

On Saturday evening last, after a farmer from Holborn district had driven his motor car to town, he became curious as to the amount of gasoline in his tank, pulled up in front of a hardware store, and asked a friend to inspect. The inspector promptly started to inspect by lighting a match and sticking it into the reservoir. The contents promptly took fire. And then the fun began. The youth standing by with the gasoline supply hose in his hand remarked: "What the—?" turned white, then red, then flew. Visitors on Main street wondered who started the pyrotechnics, and, while the gaping crowds were admiring the unusual sight, Mr. Walter Samson, of the Hardwick departmental store, grabbed up several fire extinguishers, rushed to the scene, and squelched the flames, which by this time had enveloped the gas pump in front of the hardware shop. Of course the conflagration was not officially extinguished until the assistant district deputy fire chief with the white apron appeared on the scene, waved a skewer, and declared it so.

Railway Time Table.

Going east—Every morning at 6.55 except Tuesday.
Going west—Every night at 10.36 except Sunday.

All places of business in Stony Plain will close at 1 o'clock every Wednesday afternoon during August. The Postoffice also closes at this time.

LOCAL NEWS.

Mr and Mrs Kibblewhite of Edmonton were Stony visitors on Saturday.

Mrs Gates spent the weekend with friends at Vermilion.

Messrs Geo Ashmead, Sam Gabel, John Kelly and G Davis left Monday, to work in the Saskatchewan harvest fields.

Mr and Mrs D W Pattie, of Rocky Mountain House, are spending their vacation with friends in the district.

Mr J McCulla returned to Stony yesterday from Winnipeg, where he had been in conference with Vice-Pres. Kingsland, regarding the pay of Canadian National operators and station agents.

Mr McLean, from Vermilion, is the new accountant at the local branch of the Canadian Bank of Commerce, replacing Mr S C Elliot, promoted to the accountancy of the Edmonton branch.

Miss Mary Pailer, Edmonton, is spending a short vacation at her home, north of town.

For those pupils of High school grades who failed in subjects at the Departmental exams. In June last, the Supplemental exams, will be held in Edmonton, Monday, Aug. 29th.

There will be R. C. services in the town hall Sunday morning next at 9.

During the excitement on Main street Saturday evening, when a flivver was ablaze, some party stuck their left elbow thru a plate glass window of the Jac Miller store front.

Rev W Sauder, of Czar, Alberta, was a visitor to Stony on Saturday last. The Rev. gentleman is an old-time resident of this town, having been stationed at the local Methodist church some twelve years ago. Mr Sauder sees many improvements in this town since he left here, and was given a hearty welcome by those of his congregation who still reside here. He was accompanied by his sister, Miss Sauder, who had resided here for a time.

While working on his farm north of town Saturday afternoon, Mr John Ulmer had the misfortune to chop the major toe on his left foot with an axe. He suffered the loss of quite a lot of blood in his half-mile walk to the house to have his injury attended to.

The Story Of Garnet Wheat Epitomises History Of Wheat Breeding Work In Canada

Garnet wheat has in the last few years been very widely discussed and enthusiastic journalists and others have given it a reputation which it will find difficult to sustain. However, there has just been published a Bulletin, written by Mr. H. Newman, Dominion Cerealists, which gives an authoritative and unbiased statement of what actually is known regarding the performance and quality of this new wheat in comparison with other varieties.

Garnet has a hardy ancestry. Its pedigree is traced back to Red Fife, the old Canadian standard variety. Ladago from the Lake Ladoga region in Russia, 500 miles further north than is the city of Winnipeg, Onga from near Archangel in Russia, one of the most northerly wheat growing districts in the world, and Cehu from 11,700 feet above sea level in the Himalayas.

From the cross between Red Fife and Ladago came Preston which combined some of the good milling qualities of the Canadian Fife with the early ripening of the Russian wheat. Crossing Onga and Cehu resulted in a wheat named Early Riga, a quick maturing variety giving a good quality flour. In 1905 a crossing between a strain of Preston, called Preston A, and a strain of Early Riga, called Riga M, resulted in the new famous Garnet wheat.

It was not until 1914 that the new wheat was included in the regular test-plots at the Central Farm. and in 1915 it began to be tested at the branch farms in the prairie provinces. The present Dominion Cerealists in taking stock of all the varieties on test in 1922 found Garnet to be especially promising and singled it out with one or two other varieties for special consideration. By the spring of 1925 it had become reasonably clear that Garnet was a high yielding wheat of good milling and baking qualities, and it was decided to try it out under field conditions. In 1926, 11,000 bushels of seed were used in these field trials, and the results fully justified expectations.

The story of Garnet wheat thus epitomises the history of wheat breeding work inaugurated at the Central Farm, at Ottawa, during the past 40 years, and compels an appreciation of the man who conceived the programme, followed—Dr. William Saunders, the first Director of the Farm System. This project he has been ably carried out by his successor, the discoverer of Marquis wheat, and by the present Dominion Cerealists.

The bulletin, which contains a wealth of detail about the new wheat, may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

High Milk Production

Holstein Herd At Alberta Government Farm Makes Good Showing

The Holstein herd at the Alberta Provincial government farm at Oliver is giving quite a good account of itself, not alone in the production of milk but in milk of high fat content. One of the herd, Mrs. Silvia Cor Born 53,775, was bred by the Hon. A. C. Hardy, of Brockville, Ontario, 12 cows of his get recently showed a monthly average of 3.9 on daily test, the highest individual average being 4.5; 12 head, the set of various other sires, showed an average of 3.3.

Hongerveld Pearl Nephile 5th, 61068, one of the cows in the herd, has a record of 18,302 pounds of milk testing on an average 3.96 when she was three years old. This herd is milked three times daily.

Develop Sodium Sulphate Deposit John M. Swan, of Edmonton, in association with Horace Freeman, well-known industrial chemist, is progressing with the organization of a company to develop the sodium sulphate deposit at Oban on the Canadian National Transcontinental line in Central Saskatchewan.

Gold In Canada

Precious Metal Found In Every Province In Canada, Says One

Gold has been found in every province of Canada except Prince Edward Island. The first recorded discovery was made in 1824 on the Gilbert River, 50 miles south of Quebec city. Placer mining operations commenced here in 1847 and intermittent operations have been carried on ever since. Placer discoveries were made in Ontario, in British Columbia, and in Yukon Territory at much later dates. Lode mining for gold began at Tangle River, Nova Scotia, in 1858. Last year the total production of gold in Canada was 1,729,000 ounces, valued at \$57,149,000. Approximately 85 per cent. of this production was obtained from mines in northern Ontario, and 14 per cent. from British Columbia.

Austria Wants Canadian Flour

Discovers That Canadian Article

Makes More and Better Bread "Austrian bakers have discovered that with the use of Canadian flour they can make more and better bread. The prohibition of night baking also favors the employment of fast-baking flour," says the Commercial Intelligence Journal, Ottawa. Frederick Franko, Austrian Consul here, says his country is anticipating with gratification a trade treaty with Canada; for, while the war reduced Austria's population from 54,000,000 to 2,600,000 the city of Vienna has still 2,000,000 people to feed.

Egg-Grading Brings Results

Canada Has Reached High Place In Egg Industry

At session, in Ottawa, the World Poultry Congress heard that Canada led the world in the consumption of eggs, having established a record of 337 per annum or very nearly one egg daily throughout the year for every one of the inhabitants, men, women and children. Recent statistics show that the utmost the United States could achieve in that direction was 207, Belgium beating it out by reporting 212. Great Britain got along with the modest number of 110, ahead of Norway, Sweden and Denmark, but behind Germany and France.

The high place taken by Canada in the poultry industry is largely due to the remarkable activity shown by the Federal and Provincial Departments of Agriculture and to the educational work of institutions like the Macdonald Agricultural College in Montreal and the Ontario Agricultural College at Guelph. To these agencies is mainly attributable the higher standard of stock as well as the improved methods of feeding and marketing now prevailing. The aggregate annual production of poultry and eggs in the Dominion is now placed at \$50,000,000, revealing the poultry industry as an adjunct of agriculture of national importance.

The Canadian Poultry Association has also greatly aided the industry by adopting a standard of egg-grading, now legally effective, on the basis of inspection of exports and inter-provincial shipments. The improvement in quality and quantity has become so apparent in the export trade that the better grades of Canadian products brought as much as twenty cents a dozen higher than the nearest competitor on the Glasgow market. This simply repeats what has followed the standardization of other commodities. Producers who oppose a system necessary to secure and hold the confidence of foreign markets are injuring no one more than themselves.

Ontario Wheat Pool Active

It is expected that between three and four million bushels of grain grown in Ontario will be handled in connection with the wheat pools of the Western Provinces, as a result of conferences which have taken place between representatives of the various interests. Ontario farmers, by co-operating with the farmers in Western Canada, will be in a position to meet the needs of any market under the best of conditions. The Pool will be operated by a central board upon which will be two representatives from each province.

Slavery recently has been abolished in the state of Kalat, Baluchistan, a dependency of India, where it has been in force since the 6th century B.C.

Seeds From Western Trees Are Being Sent Abroad To Reforest The Empire

Favourable Employment Situation

General improvement is Registered In All Industries

There were pronounced increases in employment at the beginning of July, according to statements tabulated by the Dominion Bureau of Statistics from 6,137 firms employing 896,956 workers, or 11,866 more than on June 1. This increase which was larger than on July 1 of any other year of the record brought the index number to 108.4, as compared with 105.9 in the preceding month. The situation continues to be decidedly more favorable than in any other month of the years since 1920.

General improvement was registered in all industries except logging, which showed seasonal curtailment. The largest gains were reported in construction, in which they were greater than on July 1 of any other year of the record. The trend was favorable in all provinces, the most noteworthy expansion taking place in the Maritime Provinces and Quebec.

Pure Seed

Canada's Seed Grading System Held In High Regard

Commerce in seeds in Canada is conducted on a basis of legally defined grades, and the quality of seed sold must conform to prescribed grade definitions. This involves responsible duties for the inspectors of the Dominion Seed Branch, Department of Agriculture, who grade all agricultural seed and a large part of the field root and garden vegetable seeds required for domestic use and for export. According to the latest annual report of the Minister of Agriculture 32,617 control samples were examined and graded at laboratory points during the fiscal year 1925-26. The total quantity of seed represented by these samples amounted to several millions of bushels. That the system followed in this country is sound is shown by the recognition given on foreign markets to Canadian seed offered under official sale and grade names.

Moving Whole Town

The whole town of Potosi, houses and all, is going to take a ride to a new townsite near Dana, Cal. There are 50 houses which will be placed on flatcars by a crane, and housewives may continue cooking and washing while the trip is in progress. The lumber company owning the buildings is moving to a different location.

His Royal Highness stepping from the Canadian Pacific S. S. Empress of Australia to the tender which took him to the Kings Wharf at Quebec.

Several years ago the British reforestation authorities suggested to the Forest Service of the Dominion Department of the Interior that it could materially assist their work by the collection of seeds of western trees. The suggestion was acted upon and now, in addition to the large seed-extraction plant at Vancouver where seeds from all parts of British Columbia are collected, three smaller plants are maintained. These latter are located at Rocky Mountain House in Alberta and at Indian Head and Prince Albert in Saskatchewan. Beside what is sent to Britain, seeds are supplied for experimental and reforestation work in the forest reserves and elsewhere.

Last year about 11,000 pounds of five and a half tons of seed were extracted in these establishments, about 1,500 pounds of this quantity being Sitka spruce. The old adage that "great oaks from little acorns grow" would have been even more pointed and suggestive had the illustration been drawn from that variety of Canadian tree. The acorn is comparatively large and conspicuous on the parent tree, but the seed of the Sitka spruce is only one-thirtieth part of the weight of an acorn. This monarch of Canada's western sea-coast attains a height of from 100 to 180 feet and a diameter of from eight to twelve feet but the germ from which it springs is so small that it takes 300,000 or more to balance a pound weight.

Seed of the western cedar, the well-known source of shingles, weighs about the same. That of the Douglas fir, the giant of all the Canadian trees, weighs about one forty-thousandth of a pound. White pine, described by the Quebec Chronicle-Telegraph as once the standby of the eastern lumberman, still the choicest wood in the eastern forest, starts as a little seed weighing about 26,000 to the pound, and may attain a height of from 100 to 150 feet and a diameter of from 30 to 40 inches. White spruce, providing the timber used in great quantity by eastern lumbermen and pulp manufacturers, begins as a seed of which 120,000 are required to weigh a pound.

To give an idea of what this means, comparison may be made with some of the more familiar vegetable and weed seeds. A single Sitka spruce or western cedar seed weighs about as much as two dandelion seeds, about the same as a single seed of the carrot, chicory or mustard, and less than a single seed of garden cress or onion. Yet from these infinitesimal germs come the vast stands of forest that bulk so largely on the British Columbia landscape. They seem destined, too, to play a large part in the reforestation program of Great Britain. New Zealand has likewise taken a considerable quantity of Canadian seed for her reforestation work.

Many Applications Received

Saskatchewan Farmers Want To Register Name Of Home

A number of applications have been received by the Department of Agriculture for the registration of the names of homes, according to F. H. Auld, Deputy Minister of Agriculture, who says there are many farm homes in use in Saskatchewan which have not yet been registered. For the next two years the "Names of Homes Act" gives a certain amount of protection to those who are using names and have not registered them. After May 1, 1929, when the act has been two years in force no protest against the use of a registered name can be effective.

Was Easy To Fit

A doctor was finishing his round of the links when his small Negro caddy remarked, "Doctor, ain't you got some shoes up yonder in 'er locker you don't want? I need some bad."

"Perhaps," said the doctor, "What also do you wear?" "I dunno, sah, 'cause I ain't never bought none dat way—I either kin get in 'em or I can't."

Many a blessing in disguise eventually escapes detection.

Highland Musical Festival

100 Medals Offered As Prizes At Game Contest and Musical Festival At Banff

Under the patronage of His Royal Highness, the Prince of Wales, Canada will hold National Scottish Games and Music Festival at Banff in the Canadian Pacific Rockies, September 3 to 5.

The event is being planned on a most ambitious scale and promises to be a most elaborate affair. Each of the seventeen Highland regiments in Canada will send a pipe to compete for the trophy offered by Mr. E. W. Beatty, President of the Canadian Pacific Railway for the best regimental pipe in the Dominion.

Scottish music by folk singers and famous Scottish Concert artists, will attend, among whom will be Davidson, Thomson, Bush, Matheson, Campbell McInnes and Jeanne Dugas.

The Highland Tribes of Indians in the Rockies will take part in the festival of song and dance. Their teepee encampment and gay attire constitutes will vie with the Highlanders of Scotland for attraction.

A very attractive booklet has been issued by the Canadian Pacific Railway in connection with the event copies of which are available on application to the ticket agent.

Not Worn Out Yet

The French scientist Charles Nordmann estimates that the sun will continue to give the world its heat and light for 150,000,000,000 years. The calculation was made possible by the discovery of the construction of the atom. This eliminates the old theory that the sun would burn out in 10,000,000 years at the most and reconciles geologists and astronomers, Professor Nordmann says.

A Chic New Frock

Distinctly modern is this attractive frock having a group of plaits at each side of the front and a plain back. In View A contrasting material or all-over lace is used for the vestee and insets on the sleeves, and a long collar tie in a chic bow at the side. View B is shown fashioned of one material and has a short collar and loose sleeves with the insets omitted. No. 1613 is in sizes 30, 32, 34, 36, 38, 40, 42 and 44 inches bust. Size 38 requires 3 1/2 yards 39-inch, or 2 1/2 yards 54-inch material, and 1/2 yard additional 39-inch contrasting for View A. Price 20 cents the pattern.

Every woman's desire is to achieve that smart different appearance which gives favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centers and will help you to acquire that much desired air of individuality. FIRESTONE PLANT TO BE ENLARGED SHORTLY

Head Of Famous Tire Corporation Makes Announcement—Founder Of Industry With Son, Visited Hamilton

One of the most important visitors to the City of Hamilton during Jubilee Week was Harvey S. Firestone, president and founder of the Firestone Tire and Rubber Company of Akron, Ohio, and also of the Firestone Tire & Rubber Company of Canada, Limited. Mr. Firestone was accompanied by his son Leonard, and Mr. Meyers, chief engineer for the company.

The visit marked the fifth anniversary of the start of manufacture of Firestone gun-dipped tires in Canada. Mr. Firestone declared that he was extremely impressed with the industrial growth of the nation, and of Canada generally, and with the progress of the Canadian Firestone company. At the Hamilton Firestone was organized during rather trying times, he had not anticipated such rapid growth.

Says United States

Faces Grave Situation

Dr. Henry Taylor Quoting Survey Report Believes Farms At Low Ebb

Agriculture is at low ebb in the United States and a food shortage may some day follow a lean crop year if the trend continues, according to Dr. Henry C. Taylor, of the Institute for research of land economics of Northwestern university in a report made public.

The farmer's share of the national income in 1926 was 9.7 per cent., the lowest percentage since records have been kept; 31,000,000 acres of land went out of agricultural use between 1920 and 1925, and there were 144 farm bankruptcies for each working day during 1926, the report states, in support of the statement that the situation is "a menace to the continued prosperity of United States."

The 1926 figure of 9.7 per cent. is to be compared with 20.7 per cent. the average share of agriculture for the five years, 1909 to 1913. The high mark for the period was 21.7 per cent. in 1910, and the lowest 20.2 per cent. in 1911, according to the report.

During the past five years, the average share has been 10.2 per cent., or less than half what it was before the war.

The decline of agricultural prosperity has driven people from the land, Dr. Taylor decries. He says that the farm population shrank by a matter of 2,500,000 persons between 1920 and 1925, he said, "while the population of the United States as a whole increased by 5,500,000. With the present rate of shrinkage of American agriculture we soon may reach the point in the United States where a poor crop year will mean a substantial shortage of food for the American people."

Sweet and palatable. Mother Graves' Worm Expeller is acceptable to children, and it does its work surely and promptly.

There are two ways to buy a home on the installment plan. In one case you get a deed; in the other you get rent receipts.

SUNDAY SCHOOL LESSON

AUGUST 21

GOD'S PROMISE TO DAVID

Golden Text:—"Thy throne, O God, is for ever and ever; and the sceptre of uprightness shall be the sceptre of Thy kingdom."—Hebrews 1:8.
Lesson: 1 Chronicles 17.
Devotional Reading: Hebrews 1:8, 12.

Explanations and Comments

1. David Plans To Build A Temple, verses 1, 2.—When David was at peace with his enemies, he began to consider what next he could do for his kingdom. To Nathan, the prophet, he told the plan which he had probably long cherished. He himself was dwelling in a house of cedar, he said to Nathan, but the ark of God was housed under curtains, in a tent made from goat's hair. Compare Haggai's argument for rebuilding the temple in Haggai 1. "David was an old man when he spoke these words, but old age had not chilled him as it so often does. It had not made him cynical nor selfish, as if there were nothing worth caring for but his own comfort. There is the ring of enthusiasm about his words, the note of resolve that nothing could be too splendid to be lavished on the house of the Lord of Israel."—E. H. Morrison.

David's plan seemed to Nathan good, and he told the king to do all that he desired to do, for God was with him.

The Lord demands my best, I will not keep the house of cedar and offer him the fragile tent. He shall have the cedar. I will offer him my best; he shall have the best of my time. So often I give him the fragment of the day, I give him the remnant of weariness, the remnant of the hour when I am quite worn out. I keep the best for business. Henceforth I would give him my brilliant moments. I would sacrifice "the springs of the day" to the glory of his worship. My sacrifice is not a "whole burnt offering," Lord, "take my art." Graciously include and consecrate my best."—J. H. Jowett.

Miller's Very Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for many troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Surplus War Stock Sold

British Supplies On Sale Since Armistice Finally Disposed Of

British war supplies, valued at nearly \$3,500,000,000, which have been on sale ever since the armistice, have now been finally cleared up, Charles E. Lyon, Assistant Commercial Attaché at London, has informed the Department of Commerce at Washington. Everything was put up for sale from packages of pins to a \$25,000,000 motor truck plant. Aeroplanes went most slowly of all. Poison gas cartridges and other forms of munitions were not sold but taken out to sea and dumped overboard. \$25,000,000 worth being disposed of in this manner. Some of the items disposed of were thousands of miles of railway lines in Belgium, Greece and Palestine. The British Government sold its stock of pickled herring, which were served to the Tommies as the "goats" as the American troops. The War Liquefaction Board sold 500,000 barrels of them at something over \$5 a barrel.

Oil From Alberta

The total production of crude naphtha taken from the Royalty well and purchased from other wells in the Turner Valley field during the month of May, 1927, amounted to 22,835 barrels, according to figures published in the July issue of the Metallurgical Bulletin. This total is made up of 18,693 barrels produced by the Royalty No. 4 well, 757 barrels taken from Royalty wells Nos. 1, 2 and 3, and 3,385 barrels purchased from other producing wells.

Never stand on your dignity; there's nothing in the world so silly as that.

Minard's Liniment for scaly scalp.

FORT CHURCHILL TO BE TERMINUS OF THE H.B. ROAD

Nelson, Man.—Fort Churchill, the ancient port of the Hudson's Bay Company, which in the 18th century was a naval base and called Fort Prince of Wales, the picturesque ruins of which still stand, will be the terminus of the Hudson's Bay Railway.

Fort Churchill, situated at the mouth of the Churchill River, a great natural harbor, 477 miles from The Pas, Man., will be recommended to the Federal Government as the Hudson's Bay Railway port by Frederick Palmer, distinguished British engineer, who has just concluded a survey of both Fort Churchill and Port Nelson harbors.

Mr. Palmer, who will submit a preliminary report to the Federal Government during the present month announced his decision to recommend Fort Churchill.

"It is a natural harbor in which practically unlimited shipping accommodations can be provided in the shortest time and at a minimum of cost," declared Mr. Palmer. "It is almost incomparably superior to Nelson in safety, cost of construction and economy of time."

Following Mr. Palmer's announcement, Hon. Charles A. Dunning, Minister of Railways and Canals, stated that the Government would act immediately on the British engineer's recommendation.

"Nature has given us a wonderful harbor at Churchill and it is the policy of the Government to develop and make use of the whole Hudson's Bay route as quickly as possible," said Mr. Dunning.

The Federal Department of Railways will proceed immediately to push forward work at Churchill from the sea, and the Canadian National Railways, acting for the department, will complete construction of the remaining railroad link as speedily as possible, Mr. Dunning announced.

Crop Report Encouraging

Under Favorable Conditions Yield May Exceed First Estimates

Ottawa.—The crop report of the Dominion Bureau of Statistics, based on condition of all field crops throughout Canada is excellent. The condition of spring wheat is numerically expressed as 165 per cent. of the ten year average, representing an anticipated yield of 15.6 bushels per acre and a total forecast for all wheat of 357,367,000 bushels from 22,335,771 acres.

Last year, at the corresponding date, the condition of spring wheat was reported at 92 per cent, representing an average yield per acre of 12.6 bushels and the total forecast for all wheat was then 216,960,000 bushels. The final estimate of yield for 1925 turned out to be 109,517,000 bushels.

Assuming that conditions this year remain favorable until time of harvesting, there appears to be grounds for expectation that the wheat crop may turn out to be more abundant than the forecast of 357,367,000 bushels now indicated by the condition at the end of July, the report says.

London To London

Airmen Selected

Captain Tully and Lieut. Medcalf Chosen To Make Flight

London, Ont.—Captain T. B. Tully, for the past several years superintendent of the Ontario Government air services, and Lieut. Medcalf, of the same service, have been chosen pilots for the London, Ont., to London, England, non-stop flight.

They signed their contracts with Charles Burns, donor of the \$25,000 prize for the flight, and left at once for Detroit to take charge of the Blenheim Monoplane, scheduled to be completed and fully equipped with all navigation instruments in time for delivery in London, August 15.

The pilots hope to be ready for a take-off, if weather is favorable, within a week, or so.

W. N. T. 1694

Settlers Under Group Plan Are Prospering

Progress Made During Summer Says Canada Colonization Official Winnipeg.—On his return from an inspection tour of the settlements made by the Canada Colonization Association in the West, R. C. Duncan, assistant manager brings an account of good conditions.

Prospects in Alberta, Mr. Duncan says, are particularly bright. On the George Lane farm at Nanaka, colonization under the auspices of the association by 36 families, the settlers expect to get off \$50,000 of their indebtedness this year, and have taken out extra half insurance to protect their crop, which is the best in the history of that district.

Settlements made by the association in the Lebberidge district are also successful that it has been decided to increase them by 25 families this fall. One of the settlers has placed 120 acres in sugar beets, 50 acres in potatoes and 400 acres in wheat and other small grains, from which he expects this fall should be close to \$15,000. There are eight families now working for him.

The 14 families placed on the Bulman farm near Kelowna, in British Columbia, are doing well. Their onion crop has been harvested. A representative of the Canada Colonization Association will be placed in the Okanagan Valley to look further into opportunity for group settlement there.

Mr. Duncan is leaving this week for Ontario to investigate settlement possibilities in the tobacco fields of Essex county, where a large number of families have been temporarily placed.

Agricultural Statistics

Number Of Occupied Farms In West Is Less Than In 1921

Ottawa.—The Dominion Bureau of Statistics has issued a preliminary report on the agricultural statistics of the provinces of Manitoba, Saskatchewan and Alberta, as shown by the quinquennial census taken in June, 1926.

The report showed a decrease in the number of occupied farms in all three provinces over the year 1921, when the last census was taken. The 1926 census showed 53,251 occupied farms in Manitoba as compared with 53,252 in 1921; 117,787 occupied farms in Saskatchewan as compared with 119,451, and 71,120 in Alberta as compared with 82,594.

Total acreage occupied as farms land with 1921 comparisons in brackets were shown as follows: Manitoba, 14,411,597 (14,615,544); Saskatchewan, 45,341,985 (44,922,907).

Alberta, 28,572,931 (29,292,653). Improved farm land was shown as Manitoba, 8,346,021 (8,057,823); Saskatchewan, 27,714,045 (28,937,401); Alberta, 12,204,151 (11,758,612).

Police Watching Garibaldi

Liverpool.—Col. Ricchetti Garibaldi arrived from Havana, Cuba, on the liner Oriza. He was given a registered address by the police and asked to remain there but is allowed full liberty. Col. Garibaldi was arrested for complicity in the Catalonian conspiracy in November, 1926. The formal charge was that of possessing arms illegally and he with Col. Macia, was sentenced to two months' imprisonment and fined £3.

Penalty For Starting Grass Fire

Sacramento, Cal.—State forestry officials have been notified of a novel sentence to a careless smoker, who was responsible for starting a grass fire in Tehama County. It was by Justice of the Peace E. F. Lennon and under a decree Fred Robinson, 25, a laborer, will be prohibited from smoking for one year. Robinson consented to take the pledge and saved himself a fine.

Toronto Union Station Opened

Toronto, Ont.—Toronto's "new" union station, which for eight years has laid idle, completed but unused because of difficulties surrounding the erection of a viaduct in connection with it, was opened to the general public and the old station, which has served as a terminal for more than 50 years, was thrown into the discard. From now on all trains will be operated from the new station.

TWO RADICALS AGAIN GRANTED BRIEF REPRIEVE

State Prison, Charleston, Mass.—Nicola Sacco and Bartolomeo Vanzetti again have been given a new lease on life.

The radicals, condemned to execute their crime of murder committed seven years ago, in the electric chair, have been granted a reprieve to and including August 22.

This announcement was made by Prison Warden William Hendry, following receipt of formal papers which empowered him to take this action.

Many times before these two radicals, whose case has aroused international interest as one of the most remarkable murder cases in the history of jurisprudence, have been within a few hours of death. Then out of the night would come the word that the forces working day and night in their interests again had been successful in staying the upgraded hand of the law pending to claim revenge for two lives snuffed out away back in April, 1920. Such was the case again. History was just repeating itself.

And this dramatic climax to one of the most amazing legal battles ever fought came after defence counsel had almost given up hope—when they were about ready to admit that "no human power" could again stave off the fatal moment.

The voice which has been heard around the world, raised in loud and continual protest against the execution of Sacco and Vanzetti, brought glad news also to Celestino Madeiros, sentenced to die with the radicals. This man, also convicted of murder, but his crime having no connection with that of the radicals, is included in the blanket reprieve. His name is almost unknown to the millions who raised their voices for Sacco and Vanzetti, yet he too benefited.

Epidemic In England Is Causing Anxiety

Cause Of Illness Among Children Cannot Be Determined

Bath, Eng.—An epidemic that is supposed to have resulted, largely from the consumption of tainted ice cream, has affected more than 300 people, in Bath, Somerset, and the surrounding district. There is a great deal of anxiety over the outbreak, more particularly as a number of people who have not eaten the supposed infected ice cream, are ill from some mysterious cause.

The majority of those who are ill are children, but some adults are also one child has died from convulsions caused by the unknown irritant.

Resents Betting Tax

National Sporting League May Have Candidate To Oppose Churchill

London.—Winston Churchill, chancellor of the exchequer, probably will be opposed by an independent Conservative candidate in the Epping division of Essex in the next general election. The National Sporting League, as a protest against the imposition of the tax on betting, threatens to bring out a candidate against Mr. Churchill, who as chancellor of the exchequer, is largely responsible for the passing of the legislation imposing the tax.

May Build More Cruisers

U.S. Plans To Construct Ten In Next Five Years

Washington.—While no official statement has been made, it is understood here that in proposing a cruiser tonnage of from 250,000 to 300,000 at Geneva the American Government figured upon a maximum of eighteen 10,000-ton cruisers for this country. Eight such craft now have been contracted for and the other ten undoubtedly will be authorized by congress in the near future. The speed with which they are to be built probably was one of the subjects discussed by President Coolidge and Secretary Wilbur at Rapid City.

Naval opinion here now is that two of these craft should be laid down each year spreading their construction over a five-year period.

Eighteen 10,000-ton cruisers would total 180,000 tons which, added to the 75,000 tons in the ten light cruisers of the Memphis type, now in commission, would give the United States a total of 255,000 tons.

Air Derby Fliers Killed

Badly Burned When Plane Burst into Flames After Crash

San Diego, Cal.—Lieutenants Corvett and R. W. Waggener, U.S. Navy, who left here in an airplane they had entered in the Dole flight to Honolulu, were killed when the airplane crashed into Point Loma, near here.

The plane was destroyed in less than 15 minutes after they had left for Oakland airport, where they intended to take off in the flight to Honolulu. The plane burst into flames as it struck Point Loma.

Corvett's body was found in the cockpit of the plane and was charred beyond recognition. Identification was made from a wallet that was found in a pocket of his coat. Waggener's body was later recovered from the wreckage, and also was badly burned. Waggener is believed to have endeavored to jump clear of the plane as it fell, but was caught in the wreckage. The aviators had drawn number 13 in the race.

Attempted To Sell Dye Trust Secrets

Formulae and Contract Found In Possession Of Three Employees In Germany

Hochst, Germany.—Three employees of the German Dye Trust are alleged by the police to have been caught in an attempt to sell the manufacturing secrets of certain products to English interests.

The police say they found the formulae hidden in the men's socks. They also claim to have found a contract fixing the purchase price of the secrets at 500,000 marks (about \$267,000). The alleged contract also promised air passage to England, naturalization there, and steady employment, with a share of the profits.

The law does not cover mere attempts of such nature, and the three men were released.

Climber and Guide Missing

Jasper Park.—F. H. Stark, experienced Alpine climber and photographer of Vancouver, and Fred. Routie, Swiss guide of Jasper, are believed to have lost their lives in the Tougou Valley when attempting the ascent of Redoubt Peak, a section of the Rampart Range in that part of the country.

TRADE OUTLOOK IN CANADA IS VERY FAVORABLE

Calgary.—That the general industrial transportation and agricultural outlook from reports reaching him from all parts of Canada was on the whole excellent and would further improve as the market for Canadian products was widened, was the statement made here by E. W. Hearty, K.C., chairman and president of the Canadian Pacific Railway.

"An important factor in the latter condition will be a steadily increasing population," he said. "The transportation companies of course, only reflect the general conditions of the country, and compared with last year, their gross earnings are higher but increased costs beyond their control have resulted in lower net earnings."

The Canadian transportation companies are not yet being paid compensation for the important public services they are, I think, performing. As to agricultural conditions, a great deal will depend on the weather that will prevail during the next ten days or two weeks. If the conditions are favorable, another substantial contribution to the country's progress will be made."

"What are your impressions of the condition Canada will derive from the concurrent visit of Their Royal Highnesses and Prime Minister Baldwin?" Mr. Hearty was asked.

"The benefits which Canada will derive cannot help but be very great and far-reaching," he said. "Canadians are always glad to see Their Royal Highnesses and to them the Prince of Wales is almost as one of themselves. The unquestioned loyalty of our people needs no confirmation but far-reaching, particularly that on the occasion of the celebration of the diamond jubilee of Confederation representatives of the reigning house of Great Britain and the Prime Minister of that country insure character of the public celebrations have had a pronounced effect on our people, particularly on the younger generation, and the realization of what this country has done cannot but improve the morale of our people and increase the strength of our growing national sentiment."

Frustrate Conspiracy To Liberate Prisoners

Milwaukee Jail Found Two Bars Sued Through

Milwaukee, Wis.—What county officials said was a conspiracy to liberate 62 prisoners in the county jail was frustrated when a jailer discovered that two bars of a first class cell had been sawed nearly through, and a third bar far enough so that work could have been completed within a few minutes.

Prisoners, questioned by Sheriff Charles Schaffitz, said a woman had supplied the tools and asked them to have smuggled through so that prisoners might liberate their way out if necessary.

Floods Damage India's Crops

Bombay.—Dispatches received in Bombay from the district of Gujarat, Bombay presidency, British India, and forwarded by Reuters, say floods are reported to have damaged or destroyed 50 per cent. of the cotton crop, 90 per cent. of the tobacco and a large proportion of the foodcrops of Broach. The cotton loss in the Gujarat and Kathiawar districts is estimated at 150,000 bales.

Premier Oliver Still Ill

Victoria.—The condition of Premier John Oliver, who underwent an operation some time ago, continues with little change. Since he met his supporters in the legislature some weeks ago and announced his readiness to retire, he has not visited his office in the parliament buildings. Occasionally he is able to take a short automobile drive, but is confined to his bed a great deal.

Britain's Problem

Outside of the British Isles, it is estimated that there are but 15,000,000 white people for the 15,000,000 square miles comprising the British Empire. No other empire has ever had such a problem to deal with or handled it more successfully.

Royal Train Is Canadian Pacific's Finest

1. The lounge room on the Prince's car "Strathcona". 2. Interior of lounge section of the "Mount Stephen", one of the private cars at the disposal of the Prince. 3. "Westworth" type locomotive that will haul royal train during major portion of journey. 4. Section of the Royal train showing the "Westworth", one of the private cars used by Premier Baldwin.

UNDOUBTEDLY the finest train ever assembled for any occasion bore their Royal Highnesses The Prince of Wales, Prince George, and Premier and Mrs. Baldwin from the Windsor Street Station in Montreal recently on their journey westward across the Continent. From their observation platform at the rear of the "Mount Stephen", where the Prince of Wales will smile his greetings to thousands of Canadians across the Dominion, to the private cars placed at the disposal of Premier Baldwin, the train resembled more in appointment the most exclusive club, furnishings and appointments being in every way fitting for such distinguished guests of Canada.

Days before the Empress of Australia, bearing the Prince and

emier to Quebec, steamed up the

gray waters of the St. Lawrence, the yards of the Canadian Pacific were a scene of more than usual activity, interest centering around the Royal train being assembled there. The finest private cars of the Company were assembled, the Mount Stephen and the Strathcona for Premier and Mrs. Baldwin. The Rupertland and the Van Horne were placed at the disposal of Premier King and members of the Princes' party. The Mount Stephen used by the Prince as their dining room and also as a general lounge car is finished in walnut, the glassware and silver fittings being set off by blue toned rugs, hangings and upholstery. The Strathcona, containing the sleeping quarters of the

Prince of Wales and Prince George, is also finished in dark walnut. The coverings of the beds are in royal blue while those of their aides-de-camp are in water blues of a shaded silk. Premier Baldwin's private car, located near the front of the train, are furnished in the same manner, supplied with radio and Orthophony. The Westworth is finished in mahogany while the Killarney is in walnut. In addition to the private cars are a number of compartment (club) cars for the use of officials and others who will accompany the train across the continent. The most powerful locomotive in use on the C.P.R. will haul the special train during the major part of the journey across Canada, the locomotive being the Grand type of the 2200 class.

Government Liquor Control
Act of Alberta.

Application for Beer License.

Public Notice is hereby given that the undersigned intends applying to the **Alberta Liquor Control Board** for a License to sell Beer by the Glass, or open Bottle, for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta, and Regulations made thereunder, with respect to the following premises:

Duffield Hotel, beer salesroom to be situated in the northwest corner of said premises, on Lot One, situated on the Northwest Quarter of Section 26, Township 53, West of the Fifth Meridian, in the Village of Duffield.

DATED at Duffield, Alberta, this 4th day of August, 1927.

Here and There

Air mail service between Winnipeg and Fargo, North Dakota, has been inaugurated and this first mail left Winnipeg for the United States arrived recently.

The Shorthorn bull, King of the Fairies, recently sold from the Canadian ranch of H. R. H. de la Princesse de Wales to a United States breeder, again won the premier prize at the Calgary Exhibition.

Evidences of the renewal of interest of Old Country investors in Western Canada are seen in a number of recent transactions recorded at Winnipeg, including the proposed erection of three motion picture houses by means of English capital.

Mederic Beaupre, when clearing his farm south of Vernon on the Canadian Pacific line, found a 300-lb. boulder which was half native silver and worth about \$1,200. The discovery has aroused considerable interest among mining men in Cobalt and elsewhere who are arriving in numbers.

London, Ontario, now has an air harbor. Through efforts on the part of the Chamber of Commerce an ideal air-field site has been taken over and within a month's time, will be completely equipped and marked so as to provide an air depot available to all planes that seek London as a stopping place.

According to a financial statement issued from the headquarters of the Canadian Pacific Railway Company, the gross earnings of the Company for the first six months of the year ended showed an increase of \$3,614,778.00. The net profits, however, decreased about \$500,000 due to a four million dollar increase in the working expenses for that period.

Quebec City lived up to its traditions as the historic gateway and welcomed their Royal Highnesses the Prince of Wales, Prince George and Premier and Mrs. Baldwin with a tremendous burst of enthusiasm and a blaze of color. Vast crowds thronged the docks and waterfront as the Canadian Pacific S.S. Empress of Australia, bearing the distinguished visitors to Canada, steamed into sight.

Experiments in rust prevention by means of spraying chemical over wheat fields from airplanes is about to be tried out in Manitoba, under the direction of the Dominion Government Department of Agriculture. The machine used is merely similar in a colonial state, technically known as "Cola." It is said that one "plane" can treat 6,000 acres a day, flying at a height of 50 feet. The machine will carry 700 lbs. of chemical in the mechanical spraying apparatus.

"Austrian bakers have discovered that with the use of Canadian flour they can make more and better bread. The prohibition of night baking also favors the employment of fast-baking flour," says the Commercial Intelligence Office of Ottawa. Frederick Franke, Austrian Consul, says his country is anticipating with gratification a trade treaty with Canada; for, while the war reduced Austria's population from 54,000,000 to 4,000,000 the city of Vienna has still 2,000,000 to feed.

SUMMERFIELD & MAYER.

Stony Plain and District.

Mr and Mrs R H Kruger and family moved, this week, to Edmonton, where Mr Kruger has secured employment in a garage.

Doings at Edmonton Beach were greatly enlivened Sunday afternoon by the presence of Bandmaster Appel's band, from Golden Spike, which rendered some fine musical selections. The new land stand not being ready for occupation, the musicians played from boats moored a short distance off-shore.

The Boy Scouts of St Joseph's Parish, Edmonton, left for their homes today, after a ten-day stay at Edmonton Beach. They had been guests at the Rotary Camp there.

Mr Wm Hopkins is holding a sale of his stock, machinery and household goods tomorrow (Friday) Aug. 10th. Mr Hopkins is leaving for the Rochester Sanatorium, to receive treatment.

Mr Seehagel, the Inga farmer who was operated on in an Edmonton hospital last week, is reported now as doing nicely.

The New Postmaster.

News reached town Saturday afternoon of the appointment of the new Postmaster for the local postoffice. The choice had fallen on John P. Miller, a native son. He had been visiting for a short time with friends at Ired Willow and arrived back in Stony on Sunday night, after receiving news of his appointment. The new postmaster has a host of friends in town and district, and has always taken an active interest in all outdoor sports, being captain of the hockey team for several seasons. He has entered on his new duties.

Ball Tournament at Stony

Walter League were the first contenders in the baseball tournament on the local Fair Grounds Sunday afternoon. Some very good ball playing was seen, Walter League finally winning by a score of 15 to 5. The winners then played a team from Holborn. W-L found this team a tougher proposition than the one they first encountered, but Holborn's team finally succumbed. Score: W-L 14, Holborn 9. Gus Zucht umpired both games in a satisfactory manner.

The Great Nelson at Stony.

A fair crowd greeted the Great Nelson and his troupe when they appeared at the local hall Saturday evening. Nelson's many feats with handcuffs, shackles and the strait-jacket, and his tricks with cards, were the cause of wonderment to those present. As usual, no one appeared to claim the \$100 reward of fued for making his escape impossible. The dance which followed was fairly well patronised.

The Greatest Crop.

Dept. of Agriculture's Crop Report says: Some frost damage has been reported, but this is negligible, and there is every indication that one of the greatest crops in the history of Alberta is well on its way to maturity.

Spruce Grove News

The U.G.G. elevator here is receiving a supply of binder twine. Owing to the large prospective demand for twine, this Fall, get your order in now.

On Friday afternoon last, while Mr Fred Knight, of Entwistle, was driving his car (No. 52805) in to the Grove, from the east and was opposite Dickie's dancing pavilion, he was bumped into by a delivery truck (No. 67484) driven by a young man named Treit. The onslaught was so sudden, Mr Knight, who had turned to his left onto the grass, was unable to do anything further for his safety, and his car received the impact on the right fender. Mr Treit, apparently, had been watching a car approaching him head-on from the west, and was surprised when the collision happened. The damaged vehicles were towed down to Dave Bell's car hospital, where necessary repairs were made.

John Ries has gone to Vernon, B.C.

Rev Father R Smit, O.M.I. will offer Holy Mass and preach in German at St Joseph's church, Spruce Grove, on Sunday Aug. 28, at 10 in the morning.

Fredrick S Selwood, manager at the Gillespie grain elevator at Spruce Grove, passed away at his residence on Saturday last, the 13th. Deceased was in his 38th year, and had been suffering for some time from heart trouble. He had been resident in the Grove for about two years. He is survived by his wife; one daughter, Helen; three brothers and three sisters. A large number of friends and acquaintances attended the funeral.

As They Do It in Edmonton.

Nels Madden, who operates a motor truck and was driving it without a license plate on the rear, was fined \$10 and costs of \$5 in the provincial police court on Monday. He explained that he had reported the plate missing two days before, but had not then secured a new one.

A Vanderschae of Winterburn failed to report the loss of his license plate and drove without it. He was fined \$5 and costs of \$5.

"Charlie" Returns.

Mr Charles R Liebert, from Davidson, Indiana, after an absence of six years, is back in Stony on a visit, having motored up all the way. He formerly farmed in Inga district, and has a host of friends here who are all pleased to see him. Thru all his trip up from his home town, Charlie says no district looks so pleasing to a farmer's eye than the district right here. He predicts for our farmers, this season, a much larger crop than any of those bumper harvests he shared in the good years he was farming here. Mr Liebert says very few of the people where he lives speaken zie Deutsch, and he speaks regretfully of the fact he has almost forgotten how. Charlie says they don't feed 'em down in Indiana like he was accustomed to while in Alberta: another cause for regret.
